VIS-À-VIS WITH THE GENERATION RIESLING.

Their wines are like themselves: strong in character and unique. Steigenberger welcomes you to an enjoyable and impressive meeting with the wines of the successful vintners of the Riesling Generation. On selected dates you can even taste the wines together with the young ambassadors of German wine.

THE YOUNG WILD ONES ARE COMING.

Wine lovers the world over are increasingly coming to appreciate the Riesling grape and other delicious wines from across Germany. Thanks in part to the efforts of a collection of young winegrowers, the "Riesling Generation", these German wines are finding new fans at home and abroad.

Steigenberger invites you to come and meet these young ambassadors whose

energy and creativity have done so much to improve the image of German wines. Join us in our exclusive settings and discover these multifaceted, characterful and refreshing wines for yourself.

PEOPLE AND WINE – GETTING THINGS MOVING.

The Riesling is truly unique, because in our somewhat cool climate it exhibits a characteristic property which is found

nowhere else in the world. Some two thirds of all Riesling vines are to be found in Germany. An excellently educated, internationally oriented and ambitious young generation in German winegrowing with one common objective: the quest for the highest quality. In doing this, the cooperation with nature itself is every bit as important as the gentle development and careful handling of the wine as a cultural asset.

THE RIESLING RENAISSANCE.

The different winegrowing areas are being developed by the individuality of the young vintners to an ever increasing multi-faceted degree. With new ideas and the courage to change they are drawing the best out of every vintage. The results can be tasted: unique wines which elegantly combine three aspects: dry fruitiness, class and finesse. There is no way of getting past Riesling & Co. thanks to the young professionals.

GENERATION RIESLING ON TOUR.

Have we awakened your interest in these dynamic representatives of modern winegrowing? Then simply join their tour. You will see that wine tasting is not something which must be taken dead seriously, they can be real fun.

Look forward to the connoisseurs' events of a special nature at one of our Steigenberger hotels near Germany's most beautiful winegrowing areas. From the Ahr and the Moselle via Saxony through to Baden, we welcome you with many extras for the wine connoisseur and for those who wish to become one.

At these events (please see the following page for an overview of the hotels and dates) two young vintners are hosting an exclusive wine tasting. They will answer questions on their particular winegrowing areas and their wines.

RIESLING RULES PACKAGE.

For all of those who have no time on the dates of the events, our Riesling Rules package runs until the end of October.

This includes the same components as the events themselves, i.e. wine cookbook, a box of wine to "enjoy at home" and a 4-course degustation menu with wines from the region. This flexibility offered means that you have to do without only one aspect, namely the presence of the young vintners. And if you wish you can also visit your new favourite vintner on your way home.
